**Stefan Bertilsson &
Hanna Farnelid**

Besides being ISME ambassadors, we are both engaged in a national research program (Aquatic Microbiome Research Initiative) enabling us to organize courses and meetings and facilitate research exchanges in the area of microbial ecology. For 2019 we highlight three events:

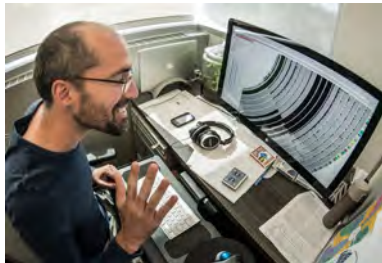

Microbial ecology satellite meeting and scholarships awarded at the Crafoord Prize ceremony (Penny Chisholm received the prize)

2019 Nordic Microbial Ecology spring meeting (ca 70 participants)

In light of SARS-CoV we currently organize biweekly virtual seminars

Anvio workshop under the guidance of invited teacher Tom Delmont
